Welcome to New Opportunities, Inc.

For over 55 years, we have served the community in providing quality, confidential care addressing substance abuse issues. Through the years we have helped countless individuals change their lives and the lives of those they love by becoming drug and alcohol free.

Through various services offered we help facilitate a change process within individuals. It is our belief that addiction is a treatable disease. We provide a holistic, practical recovery-oriented system to meet the varying needs of each individual.

Counselors available 24 hours a day, 7 days a week at 712-830-0074.

Outpatient Substance Use Disorder Services

Intensive Outpatient Program

The intensive outpatient program offers a minimum of nine (9) hours of treatment services per week. This is provided in a structured group environment offered three days a week that utilizes an evidenced based program. The staff provides a safe confidential setting to help assist the client in moving towards a healthy sober lifestyle. There is a focus on Early Recovery Skills, Relapse Prevention and Family Education.

Extended Outpatient Program

The extended outpatient program offers a minimum of one (1) hour up to eight (8) hours of treatment services per week which can include:

Extended Outpatient Group: Provides regularly scheduled weekly groups that address lifestyle, attitude and behavioral issues which undermine the individual's ability to cope without the use of alcohol or drugs.

Adolescent Outpatient Group: Provides regularly scheduled groups two days a week. An evidenced based curriculum specific to adolescents is utilized. Adolescents learn to work and think on their own as they strive to change high-risk behaviors.

Individual Counseling: Provides regularly scheduled individual session. The focus of these sessions are individualized to address specific area of need to include the use of substances and the effects they have on personal life and that of the family.

Continuing Care: Provides ongoing support and preparation for discharge following more extensive treatment in group and individual settings.

Evidenced Based Programming:

MATRIX

KIDS (Keep It Direct & Simple)

LIB (Living In Balance)

PRIme For Life & PRIme For Life 420

Botvin LifeSkills Training

Outpatient Mental Health Counseling

Outpatient mental health counseling services provide individuals with the opportunity to receive professional support and guidance while maintaining their daily routines. These services are designed to help individuals address a wide range of emotional, psychological, and behavioral challenges, including anxiety, depression, stress, relationship issues, trauma, and more. Delivered by Master's level clinicians, outpatient counseling is typically provided on a flexible, scheduled basis, allowing clients to attend sessions according to their needs. Through personalized treatment plans, individuals can explore coping strategies, build resilience, and develop the skills necessary to improve their overall well-being. Whether you're seeking support for a specific concern or ongoing therapy, outpatient counseling offers a confidential, compassionate environment for healing and growth.

Integrated Provider Network - Substance Use Disorder Prevention & Treatment Services

The Iowa Department of Health and Human Services (Iowa HHS) Substance Use and Problem Gambling Services Integrated Provider Network (IPN) is a statewide, community-based, resiliency- and recovery-oriented system of care for substance use and problem gambling services (prevention, early intervention, treatment, and recovery support).

IPN Prevention services follow SAMHSA's Strategic Prevention Framework and provide services in coordination with community stakeholders implementing all of SAMHSA's service categories:

- Information Dissemination
- Education
- Alternatives
- Problem Identification and Referral
- Community-Based Process
- Environmental Strategies
