EARLY ACCESS FOR CHILDREN AND FAMILIES – REGION 8

Prairie Lakes Area Education Agency 8 .............................................866-540-3858
118 E State Street Jefferson, IA 50129

Early ACCESS is Iowa’s early intervention system under the Individuals with Disabilities Education Act (IDEA) Part C Program. Part C funding provides early intervention services to infants and toddlers (birth to age 3) who have delays in development in hopes to lower the likelihood of further delays in development and/or improve outcomes of children before entering school. Screening and evaluation/assessments take place to determine eligibility based on the whole child including physical (gross motor and fine motor skills), cognitive, communication, social-emotional, adaptive/self-help, and health services (hearing, vision, nutrition). If a child is determined eligible an Individualized Family Service Plan (IFSP) is created to address the unique needs of each child/family. Early ACCESS services may include:

- Service Coordination
- Special Instruction
- Occupational Therapy
- Physical Therapy
- Audiology
- Assistive Technology
- Speech-Language Therapy
- Social Work/Psychology
- Vision Services
- Family Training and/or Counseling
- Nutrition/Dietician Services

An infant or toddler under the age of three is eligible to receive services through Early ACCESS services if determined to have a 25% delay in any area of development, diagnosed with a known condition with a high probability of developmental delays, or by informed clinical opinion of service provider(s) involved during the evaluation.
and eligibility determination process. These services are voluntary and provided at no cost to families.
