

Fun Friends Mentoring with New Opportunities in Guthrie County

New Opportunities has been serving Guthrie County for many years and we continue to offer the same great service. We would like to introduce our new Mentoring Coordinator, Regina Angandja. Regina will be assisting children and families in Guthrie County by managing a community based mentoring program for youth -Kindergarten through 12th grade. Regina is currently managing the school and community based programs in Audubon and Carroll County and brings a passion for matching every child with a mentor.

Mentors are adult volunteers who offer at least 4 hours of their time per month to help their “fun friend” with homework, social skills, and provide overall friendship to a child.

Any child can be a part of the mentoring program and benefit from having a mentor!

New Opportunities staff work to ensure each child and mentor is properly enrolled in the program. Mentors must pass a background check and receive mandatory reporter and program training. Applications are accepted year round. **You can obtain enrollment forms for your child or to become a mentor by contacting Regina Angandja at rangandja@newopp.org or by calling 712-792-9266 Ext 602.**

A Special Thank You To...

The staff of Guthrie County School District for referring students to our program and to all of our mentors who volunteer to help change the life of a child in our community!
