National Immunization Awareness Month

New Opportunities Health Department wants to remind everyone that August is National Immunization Awareness Month! Make sure you and your family members are up to date on your immunizations!

- ♦ Vaccination helps provide immunity before children are exposed to potentially life-threatening diseases **See more information for parents here:** <https://go.usa.gov/xyPFYexternal icon>
- ♦ One of the best ways to help keep your kiddo(s) safe and healthy is by giving them all recommended vaccinations. **View parent-friendly immunization schedules to make sure your kiddo(s) is staying on track:** <https://go.usa.gov/xwgaTexternal icon>

Opportunity to Give Back

This month consider donating school supplies to your local family development center. School supplies are essential items for education development that can help our low-income families who may not be able to afford them.
